NEWS TODAY FROM SAN FRANCISCO IS HORRIBLE

Entire City Has Been Destroyed by the Fires That Followed In Earthquake's Path.

Hunger and Starvation Stares the People in the Face and the Grief of the Stricken City Beggars All Description.

Measures For Relief Are Quickly Adopted And Assistance Come From Sympathetic Country.

The news from San Francisco to day is simply appalling and is almost beyond the grasp of the average mind.

Every bulletin but adds to the horrors of the situation, and it is known positively that the entire city is doomed.

The water supply is entirely gone and the fires are raging in every section of the city.

The efforts to stem the flames' progress by blowing up the buildings in its path have failed and the powder supply is gone.

There are probably over 100,000 families homeless, and starvation and thirst have added to the terrors of an awful condition.

The federal government has done all it could for the suffering city, and prompt relief has been sent by every city in the country.

The towns that escaped along the coast are doing all they can, but the work cannot afford much relief until the fires are extinct.

The damage has extended to many of the coast towns, and the fears of a tidal wave have been added to the dangers yet confronting the stricken people.

At 11 o'clock the local office of the Postal Telegraph company received this important message from San Francisco, via Oakland: It is the first news since yesterday afternoon:

"Fire still raging. No water except along Bay shore. Dynamiting buildings in an effort to check the flames. Powder supply almost gone, even the powder in the government arsenal is exhausted. Fire cannot be checked until it burns itself out. Every building in the business section and half of the residential section is destroyed and not a large building is left."

The story, as told in messages received today, follows:

THE VISITATION GENERAL.

New York, April 19.—The earthquake visitation felt so seriously on the Pacific slope was a general one. It was felt almost entirely over the states and as far south as the Danish West Indian Islands. There are few reports of damages elsewhere than in California, however.

A St. Thomas dispatch says Mount Pelée and La Soufrière volcanoes became active on the night of the 17th and are still in eruption. No damages are mentioned and none probably had occurred up to the report.

A San Jose, Costa Rica, cable says four earthquake shocks in close succession rocked the buildings there on Wednesday morning, but did no damage.

A Masatlan, Mex., dispatch mentions severe shocks there also yesterday morning but without damages.

SAVE THE ROCKY

MOUNTAINS SLIPPED.

W. W. Atwood and O. C. Farrington, geological professors in Chicago universities, attribute the disaster in San Francisco and that section to the moving of the Rocky mountains, which they say are growing more or less at all times. Each say a slight slip of the mountains and no other

reason caused the great disaster.

HICKS PREDICTS EARTH-

QUAKE AT ST. LOUIS.

Prof. Ira B. Hicks, of St. Louis, attributes the cause of the California earthquake to sun spots, which he says means more such disturbances. He predicts earthquake shocks will be felt in St. Louis and over the Mississippi and Ohio valleys in a few days or nights. He don't fear any great damages.

MORE DETAILED REPORT.

San Francisco, April 19.—Thousands of people are today homeless and are wandering in the parks seeking shelter. There are probably no homes in the city which have escaped damage and the loss of life.

The city is under martial law and all the down district is patrolled by soldiery. Details of troops are guarding the banks.

Most all of the public buildings are totally destroyed, and over the entire city hangs a dense pall.

The tall steel buildings stood the shock better than any others with the exception of the new Monadnock building adjoining the Palace hall. This crumbled and went down.

Docks and freight along the waterways slid into the water.

The Valencia hotel literally sank into the ground.

The Leland Stanford University at Palo Alto is a complete wreck. It cost over \$20,000,000.

The Cliff house and the pleasure resorts adjoining have been swept into the sea.

The government mint is ablaze and it looks as if it won't be saved.

The exact loss of life will never be known as many of the bodies have been literally burned up in the flames.

The mayor has appointed a committee of safety and ordered the bakeries and milk stations to harbor their food supply for the homeless.

The Call building went with the others and the flames leaped across Stevenson street and attacked Claus Spreckles' 15-story stone and iron structure.

The Palace hotel, the rear of which was constantly threatened, was the scene of much excitement, the guests leaving in haste, many with only the clothing they wore. Finding that the hotel, being surrounded on all sides by streets was likely to remain immune, many returned.

The Parrot building in which were located the chambers of the satellite located the chambers of the state supreme court and lower floors of an immense department store were ruined, though its massive walls were not all destroyed.

Banks and commercial houses, supposed to be fire proof burned quickly and the roar of the flames could be heard on the hills out of the danger zone. Here thousands of people congregated and witnessed an awful scene. Great sheets of flames rose high in the heavens or rushed down some narrow street, joining midway between the sidewalks and making a horizontal chimney of a former passageway. The flames were so dense that arose from the entire business

(Continued on Page Eight.)

GREAT SUFFERING AND HARDSHIP

Last Night One of Intense Terror and Grandeur.

The City Resembled One Vast Semblage of Wandering and Distressed People.

THE FLAMES RISE SKYWARD.

San Francisco, April 19.—The suffering and hardships beggars description. Countless numbers of residents of the poorer section of the city, including Chinese, Japanese and the Italian quarters have been rendered homeless. Unless supplies and aid reach the city within 24 hours starvation will add to the awful calamity. Never has the fate of a city been more disastrous. For three miles along the Water front buildings have been swept clean and last night blackened beams and great skeletons of factories and offices stand silhouetted against a background of flame that is slowly spreading over the entire city. The whole commercial and office section of the city on the north side of Market street from the Ferry building on Tenth street has been consumed in the hell of flame while hardly a building is standing in the district south of Market street. Block after block of banking houses are now masses of red hot ruin and it will be months before the money housed in the valuable vaults can be reached.

The exact loss of life never will be known as hundreds of unfortunates have been incinerated in the flames which made the rescue of those buried under toppling steeples and falling walls impossible. Temporary morgues were improved at many points only to be razed by flames. Last night the city resembled one vast semblage with the red glare of fire throwing weird shadows across the worn and panic-stricken faces of the homeless who wandered the streets or slept on piles of mattresses and clothing in the parks and on the sidewalks in those districts not yet reached by the fire, forgetting for a moment the terrible suffering, physical and financial that trails in the wake of disaster. The scene presented by the flames was one of unspeakable grandeur. Looking over the city from the hill, the flames could be seen rolling skyward for miles and miles, while in the midst of tongues of red fire were to be seen black skeletons and falling towers of doomed buildings.

Aoki in Vancouver.

Vancouver B. C., April 19.—Viscount Aoki, the first Japanese ambassador to the United States, arrived here this evening on the Empress of China.

O O O O O O O O O O O

New York, April 19, 4 p. m.—The Western Union received the following from the operator at Los Angeles at 3:45 this afternoon: "Western Union building here is rocking like a boat."

Washington, April 19, 4 p. m.—A message to the war department from Los Angeles says an earthquake occurred there this afternoon. Immediately after the shock connection with Los Angeles ceased.

THE LATEST 4 P. M.

Oakland, April 19.—Scores of towns within hundreds of miles of San Francisco are completely destroyed. Loss of life will probably exceed that in San Francisco. Property worth more than \$50,000,000 is wiped out. Santa Rosa, Agnew, Napa and Sausalito is almost obliterated. Santa Cruz, Monterey, Gilroy, Hollister, are wrecked. Loss of life. Santa Cruz, a large terminal island beach resort, 20 miles from here, is reported destroyed by a tidal wave. Leland Stanford University is in ruins, and scores are believed to be lying dead at San Jose and Santa Rosa, while here and there a seaside resort along the coast is entirely wiped out by a tidal wave.

The old Mission at Santa Clara, one of the best known landmarks in California, is wrecked.

RELIEF GOING TO STRICKEN PRISCO

Messages of condolence and proffers for relief are pouring into San Francisco from every quarter of the globe, and it is appreciated. The death and destruction is almost beyond conception say the late advisers.

Special meetings of the city legislative bodies are being held in the larger cities and contributions of money and supplies are being solicited.

Paducah will and should do her part, whatever it may be, and to-day lending an assisting hand The Sun will accept donations with the assurance that it will be forwarded to the proper authorities at once.

Donations can be made in anything, but of course money is preferable. Already The Sun has received several contributions, and it hopes for more.

Either mail your contribution to The Sun or telephone the office and your names will be enrolled.

Friedman, Keller & Co have started the fund with a generous donation of \$100.

Other donations in cash to the amount of \$25 have been received. The list follows:

Friedman, Keller & Co.	\$100.00
The Sun	10.00
Sundries	10.00
Hummel Bros.	5.00
Richard Rudy	5.00

Washington, April 19.—The senate today adopted a resolution appropriating a half million dollars for the relief of San Francisco sufferers.

Gen. Funston Wires Washington the City is Practically Gone== Wants Tents and Rations.

Last Night Conditions and Scenes and Conditions Today Distressing Beyond Description Probably Worst Yet to Come

Entire World Anxious For And Thinking Of othing Else In Face Of This Dreadful Calamity.

TIDAL WAVE MAY COME ANY TIME

Thousands are Homeless, With Hunger and Thirst Added.

Fires Are Still Raging, Now Reached Residence Portion of the City.

ALL BEGGARS DESCRIPTION.

San Francisco, April 19, 10 a. m.—The Postal Telegraph company now has four wires running into the city and they are heavily freighted with messages as can be surmised.

It has announced in every office in the country that it will accept free any messages offered by mayors of cities and other organizations pertaining to the relief of the city.

General Funston has just wired the authorities at Washington that they cannot send too many tents as there are fully over 200,000 homeless.

All the government houses have gone down in ruins and the fire still rages intensely.

Dread of a tidal wave, which usually follows earthquakes has seized the terror-stricken people of San Francisco and the coast towns, and thousands are fleeing to the hills. Many, almost too frightened to move, are huddled in the parks. Actual hunger already is added to the suffering, and food must be had today.

The supply of drinking water is cut and thousands are thirsting. A hundred thousand are homeless in the city. Thirty-five fires are raging.

Fire is still raging and working eastward. The crash of falling walls are heard on every side. The groans of the wretched people pined in wreckage, doomed to a slow death, as flames crawl upon them, is terrible. Flames have reached the residence district and are raging uncontrolled. Several square miles are on fire. No wire connects the city direct with the outside world.

Points to Murder.

Wooster, Ohio, April 19.—James Dreenan disappeared mysteriously from his home two weeks ago. He had considerably money. His blood-stained clothing has been found in an empty box car at New Berlin, Ohio. It is believed he was murdered by tramps.

Young Rhodes Doing Well.

Walter Rhodes, who was so seriously injured a few days since by a playmate hitting him in the head with a rock and crushing his skull, is resting as well as could be expected. A few days more is necessary to tell the result of the lad's injuries.

Attentive is the name of Britain's latest 25-knot scout ship.

Washington, April 19.—Following received from Gen. Funston today: "Impossible to inform you of the full extent of the disaster. The city is practically destroyed. Troops are aiding police. Martial law not declared. Cannot send too many tents and rations. Probably 200,000 people are homeless. All government buildings in city gone."

The war department immediately ordered tents and two hundred thousand rations sent from nearest point.

All of San Francisco's best play houses are a mass of ruins. The earthquake demolished them for all practical purposes and the fire completed the work of demolition. The Rialto and Casserly buildings burned as was everything in that district.

Santa Rosa's Fate.

Oakland, April 19.—The latest reports from Santa Rosa state the town is practically wrecked. Rumored loss of life there will reach from five to eight hundred. Not a business building escaped destruction.

Insurance Situation.

New York, April 19.—Fire insurance men in this city were deeply interested in the San Francisco news from a professional standpoint as well as from natural horror at the disaster and sympathy for the victims. As an insurance proposal the status of the ruin by fire in the California metropolis can not be determined until complete returns are received.

Whether the fire insurance companies are to be heavy losers or are to escape a most all loss will depend entirely upon how the devastating fires in San Francisco following the earthquakes prove to have originated.

If any building fell before it took fire the companies carrying risks are not responsible for the loss. If any building took fire from an adjoining building the companies are responsible for the loss on the latter structure if insured.

Few of the large companies transact their western business through the New York offices, and the officials here were not posted, as a rule, as to the amounts carried in San Francisco, or as to the character of the policies used in that city.

STILL LATER REPORTS.

New York, 10 a. m.—The Western Union says that all operators have started across the bay to Lakeland to work. Officials of the company announce that they have onedirect wire to Frisco, and latest information is that the flames are still on the rampage and that they have reached Twenty-second and Mission streets.

The Merchants' Pavillions, which was yesterday turned into an emergency hospital, has collapsed burning hundreds of wounded in the ruins.

Nearly ten squares of the city have been swept by the flames. The government mint is now burning fiercely.

Chicago, April 19.—There are over four thousand messages on file with the telegraph offices in this city for San Francisco, but on account of the great demands on the wires from that city nothing is yet being accepted for the stricken city.

Oakland, April 19.—Fire has just reached Nob Hill. This is the finest residence district of San Francisco. Fairmount hotel, a new structure, erected by Mrs. Herman Oelrichs, is now in flames. Costly buildings and residences are now burning.

At least 2,000 lives were lost in the earthquake and the conflagration which followed. Hospitals and

improvised asylums, with difficulty, are able to care for the injured.

Los Angeles, April 19.—The later reports show that the earlier reports of the damage and loss of life in San Francisco were greatly underestimated.

Ten thousand are homeless at Santa Rosa.

Santa Rosa's Fate.

Oakland, April 19.—The latest reports from Santa Rosa state the town is practically wrecked. Rumored loss of life there will reach from five to eight hundred. Not a business building escaped destruction.

(Continued on Eighth page.)

LITTLE DONE BY PUBLIC WORKS BOARD

Yesterday's Meeting Was Devoted to Routine Matters.

The Question of Installing General System of Storm Water Sewerage Considered.

SEVERAL MINOR ORDERS MADE

The board of public works held an uninteresting meeting yesterday afternoon. There was little work of importance before the board, the business being routine, and the meeting lasted only a short time.

The board discussed the installation of storm water sewers generally. In various portions of the city small sewers for temporary use are put in at a great cost in the aggregate, and the board seemed inclined to believe that it would be an economical move to install large storm water sewers generally. The matter was left open for a future meeting.

The board directed a letter to the municipal boards asking for instructions regarding purchasing property necessary to open Tenth street from Broadway to Kentucky avenue. A. G. Gilbert has made the city an offer for property necessary to open the street, but the proposition has never been fully acted on in the boards.

Street Inspector Alonzo Elliott and Member John G. Rinkliffe were authorized to buy a mule for the street department.

Supt. Keebler, of the city power house, and Member John Rinkliffe were authorized to buy a new supply wagon and a set of harness for the light department.

City Engineer Washington was authorized to advertise for bids for plumbing work and material necessary in his departmental work.

A petition from property owners on "Punkett Hill," who want to dedicate property necessary to open a street to Jackson and Clark streets from the I. C. tracks, the street to be built at the city's cost, was referred.

The East Tennessee Telephone company filed a drawing showing where the company desired to set poles in the city. The matter was referred for a conference between the telephone manager and Supt. Keebler, of the power house.

Permission was granted the Paducah Traction company and Home Telephone company to place poles on streets in the city.

The matter of putting in new machinery at the power house or repairing old was referred, pending a detailed report from the power house superintendent.

City Engineer Washington was instructed to put in necessary sewers at Fountain avenue and Broadway to carry off surface water when the pavements are put down.

Supt. Keebler, of the city power house, was instructed to cut in a street light at Fifth and Husbands street. The light was cut out some time ago and transferred to Fountain avenue and Harrison street, and property owners about Fifth and Husbands remonstrated.

Repairs to sidewalks on Broadway between Ninth and Tenth streets were ordered made.

Street Inspector Alonzo Elliott was ordered to dig a ditch from Harris from Fifth to Sixth street to perfect drainage. Similar improvements were ordered about Broadway and Jefferson, in the Fountain avenue neighborhood, to drain Bradshaw Creek.

Siam was a cotton-producing country 2,500 years ago.

Backache, Pain in the Hips and Groins

In most cases are direct results of WEAK KIDNEYS and INFLAMMATION OF THE BLADDER. The strain on the kidneys and inflamed membranes lining the neck of the bladder producing these pains.

LARK'S KIDNEY GLOBES WILL CURE IT

Two doses give relief, and one box will cure any ordinary case of Kidney or Bladder trouble. Removes Gravel, cures Diabetes, Seminal Emissions, Weak and Lame Back, Rheumatism and all irregularities of the Kidneys and Bladder in both men and women. Sold at 50 cents a box on the No Cure No Pay basis by McPherson's drug stores, Fourth and Broadway, sole agents for Paducah, or sent by mail upon receipt of price to Lark Medicine Co., Louisville, Ky.

SHOCKS FREQUENT ON PACIFIC COAST

San Francisco Has Suffered Before From Visitation.

In 1868 Much Damage Was Done and Many Lives Lost in the City.

THE CHARLESTON 'QUAKE IN '86

New York, April 19.—The Pacific coast has been so frequently visited by earthquakes that it was deemed unwise, until a few years ago, to erect tall buildings in San Francisco. It was only with the advent of modern steel construction, which was believed to render tall buildings safe from the earth's tremors, that skyscrapers made their appearance on the Pacific coast. In the last 50 years over 250 earthquake shocks have been recorded in San Francisco. The most severe were in 1868 and 1898. In 1868 much damage was done to the city and many lives were lost.

The disturbance of 1898 did not result in the loss of life, but caused much damage to property. This shock occurred at 11:43 p. m. March 31, and the houses all over the city were shaken to their foundations. There

was intense excitement, and many miraculous escapes were recorded. The damage was particularly severe along the water front, for a tidal wave rolled in from the bay and wrecked small boats and docks. The city was cut off from telegraphic communication with the coast for several hours. The Mare Island navy yard was damaged to the extent of \$150,000, and since then no buildings over two stories high have been constructed on the government reservation. This shock of 1898 was confined to Central and Northern California, and severe damage was reported from interior state points. Fires broke out in several small towns from overturned lamps and stoves, and the flames destroyed more property than did the earthquake itself. The 1898 tremor was declared to have been the most severe ever recorded at San Francisco, and it was remarkable that no loss of life resulted.

It has been noticed before that nearly every seismic disturbance on the Pacific coast has been preceded by more or less violent disturbances or volcanic eruptions in the south seas or near Japan or Australia, and the shocks of yesterday would seem to have, as their precursors, the recent disturbances at Formosa.

A man named Crickson once prophesied that San Francisco, Oakland, Chicago and New York would be destroyed by an earthquake on April 14, 1890. The approach of this date caused a wild panic in San Francisco, and early in April real estate values actually suffered serious depression as a result and many timid people

left the city. April 14 came, however, and nothing happened.

The most recent earth tremors were recorded at San Francisco May 19, 1899; August 7, 1899; April 25, 1899; April 21, 1892; and in January, 1900.

The last great earthquake in the United States was that of Charleston, S. C., in 1886. This earthquake was preceded by minor tremors, to which little attention was paid. The principal shock occurred about one minute, and other shocks followed at intervals with gradually diminishing violence. At the end of four weeks they had ceased to be destructive, but tremors were occasionally observed for several months longer. In Charleston shocks were less violent than at the center of the disturbances, a point 15 miles west of the city. A large number of houses in the city were thrown down, and nearly all the buildings in the city were more or less damaged. The damage was computed at many millions of dollars. Twenty-seven persons were killed outright, and others died afterward from injuries received.

Speaking of the possible causes of the San Francisco earthquake, Prof. Charles P. Berkey, of the department of geology, Columbia University, said:

"There is no possible connection between the San Francisco disturbance and the recent eruptions of Vesuvius. Earthquakes are not necessarily of volcanic origin. The earth's crust, in cooling, contracts, and often contracts unevenly, so that it causes the strata to slide. Such a sliding of the earth's crust might have

caused the San Francisco earthquake.

Ballard's Horehound Syrup.
Immediately relieves hoarse cough; oppressed, rattling rasping and difficult breathing. Henry C. Stearns, druggist, Shullsburg, Wis., writes, May 20, 1902: "I have been selling Ballard's Horehound Syrup for two years, and have never had a preparation that has given better satisfaction. I notice that when I sell a bottle they come back for more. I can honestly recommend it. 25c, 50c and \$1.00. Sold by Alvey & List."

Ernest Belt Better.
Mr. Ernest Belt, who was brought here from Dyersburg, Tenn., several days ago suffering from a temporary mental derangement, is reported slowly recovering. The condition is the result of illness and a general weakness. He is at the residence of his sister Mrs. Albert Duperieu.

The Texas Wonder
Cures all kidney, bladder and rheumatic troubles; sold by J. H. Oehl-schlaeger, 601 Broadway, Dr. E. W. Hall, office 2926 Olive St., St. Louis, Mo.

Wyatt Got the Farm.
Attorney E. W. Hagby, referee in bankruptcy, this morning made an order of distribution of about \$2,000 in the bankrupt matter of M. G. Warren, of Marshall county.

Warren took the bankrupt law several years ago and his case was long drawn-out. He owned a farm in Marshall county and the farm was sold, the creditors having subjected it to debt. The farm went to Dr. J. D.

Lawrence and was surrendered to the purchaser yesterday. Warren vacating. The order of distribution could not be made until possession of the property was gained.

Lawrence Made Adjutant General.
Frankfort, Ky., April 19.—Governor Bechtel today appointed Henry L. Lawrence, of Trigg county, speaker of the last house, as adjutant general and he qualified at once.

Daily Thought.

"Great convictions make great characters, great lives."

THE SAN FRANCISCO DISASTER.

The news from San Francisco today adds instead of diminishes the horrors of what is probably the worst catastrophe that has befallen a modern community, and the sympathy of the world will go out to the stricken city and its people.

The expressions of sympathy and the proffers of assistance have been quick and generous.

In times and incidents like this, the entire Christian world is at one. In the midst of the awful gloom and depression attending such a disaster there are many incidents of human nature noble in their beauty.

Most of the legislative bodies of the American cities have quickly been called in special session to make donations of money, provisions and assistance in any acceptable form to the bereft people and they will be given in full measure.

Paducah should send its mite, and it would be fitting if the aldermen tonight offer a resolution appropriating something for the relief of the city.

The Sun knowing the generous impulses of the people of Paducah, has started a relief fund and heads the list with \$10. It has received many other donations and will gladly accept anything any of its readers wish to send to a suffering people.

ROOSEVELT'S LATEST MESSAGE

President Roosevelt sent another message to congress yesterday. The document has reference entirely to the recent trial of the Chicago beef packers and was a review of the case. He declares in the paper that the trial in question was a miscarriage of justice and he roundly denounces the decision of Judge Humphrey, who presided. The president asks that the government be granted by statute the right of appeal, like defendants in criminal cases, and in making the request he strongly urges congress to supply this discrepancy in the laws. The message is generally pronounced a sensational one, but its force is not to be questioned. The president makes these points:

"The result has been a miscarriage of justice."

"This interpretation of Judge Humphrey of the will of the congress, as expressed in legislation, is such as to make the will absolutely abortive."

"It is very desirable to enact a declaring the true construction existing legislation as far as

it affects immunity."

"There seems to be no good reason why the department of justice, the department of commerce and labor and the interstate commerce commission, each should not, for the common good proceed with its own powers without undue interference with the functions of the other."

"The danger nowadays is, not that the innocent man will be convicted of crime, but that the guilty man will go scot free."

"These beef-packing cases offered one of the very few instances where there was not only the moral certainty that the accused men were guilty, but what seemed—and now seems—sufficient legal evidence of the fact."

"The case well illustrates the desirability of conferring upon the government the same right of appeal in criminal cases, on questions of law, which the defendant now has. In all cases where the defendant has not been put in jeopardy by a trial upon the merits of the charge made against him."

The astuteness of the Paducah town cow has always been something phenomenal so her recent visit into a local undertaking establishment was not so strange as it would seem. She sees her finish and went to the proper place.

MAYOR M'BROOM

CHAIRMAN OF COUNCIL IS THE CITY'S EXECUTIVE TODAY.

Illness of Mayor Yeiser and Mayor Pro Tem Starks Makes the Councilman "Chief."

Mr. George O. McBroom, president of the councilmanic board, is mayor pro tem today, necessitated by the illness of Mayor Yeiser and Mr. Oscar Starks, the latter president of the aldermanic board, and is by virtue of his office, the mayor pro tem in case of illness or the mayor's departure from the city.

Mayor Yeiser has been ill several days and Alderman Starks was not taken ill until yesterday. This throws the duties of the chief executive's office on the shoulders of the next highest municipal officer, who is President McBroom, of the councilmanic board.

"I dropped into the mayor's office this morning and found Mr. Starks not there. I was informed that he was ill and that it was my duty to act as mayor," Mr. McBroom stated. "I will, of course, attend to any matters of an emergency if they arise, but otherwise will do nothing more than bear the honors, so suddenly thrust upon me."

The aldermanic board will meet tonight in regular session, but no business of importance will come up other than a ratification of the lower board's work Monday night. The board will have to elect a chairman from its midst.

WILL SUSPEND WORK ON CANAL.

Unless Senate Committee Determines On Type to Be Adopted.

Washington, April 19.—Secretary Taft yesterday told the senate committee on inter-oceanic canals that the question of the type of canal must be determined at once or Chief Engineer Stevens will be placed in a position where he will be compelled to suspend work, he did not attempt to discuss the engineering or technical questions, but said that he already is committed to the lock type, as recommended by the minority of the board of consulting engineers, and would adhere to his first opinion. He said that if congress does not settle the question the president would not hesitate to adopt the minority plan.

The secretary expects to be before the committee about three days and discuss especially questions that have been raised by the canal inquiry. He will deal particularly with the legislation needed for the government of the zone.

COD LIVER OIL.

It almost makes you sick to think of it, but it isn't nearly as bad as it is used to be. The improved method of refining it makes it much easier to take, and when made into Scott's Emulsion almost every one can take it. Most children like it and all children that are not robust are benefited by it. When the doctor says "Take cod liver oil," he generally means Scott's Emulsion; ask him if he doesn't. They know it is more easily digested and better than the plain oil.

WOMEN'S CLUBS

TAKE INITIATIVE

Start Petitions to Buy Property for a Central Park.

Would Purchase District Bounded By Broadway, Ninth, Washington, 11th and Broadway.

SIGNATURES BEING SOLICITED

The efforts to locate a park in the district bound by Broadway, Eleventh, Ninth and Washington streets, have taken form, and the Delphic and Magazine clubs assumed the initiative.

For years, efforts have been made to convert this district into a city park, and a few years ago the late Elbridge Palmer headed a subscription to purchase the property but for legal reasons it fell through. The Sun suggested it again a few weeks since, and the Rev. D. C. Wright, in his address before the Commercial club Tuesday night suggested it again.

Committees from the Delphic club and the Magazine club started out today with petitions requesting that the city buy the property. A house-to-house canvass will be made requesting signatures of every one to these petitions, and it is hoped to secure the hearty co-operation of all citizens in this plea.

It is a splendid move and should be responded to with a hearty "good speed" by everyone approached. It means more to Paducah than can possibly be computed to have this ugly spot, and the darkest blot on her fair name, made so attractive and beautiful that the blithest child in the city may walk through it safeguarded, though alone; to have it healthful from a moral as well as a sanitary point of view; and a place to which all can point with pride.

NO POSTPONEMENT.

The Odd Fellows' Celebration Will Occur as Arranged.

The meeting here on the 26th inst. of the Interstate Odd Fellows Association will be held as arranged. There will be no postponement, as has been suggested because of the probable inability of the people of Cairo and other points along the Illinois Central railroad to get cars to come on.

The date for the meeting of the association is the one originally selected for by the association and was chosen because it was the anniversary of the establishment of the order, and sentiment will not allow it be changed. The coming anniversary is the eighty-seventh one of the widespread order.

The question of postponing the meeting for the coming 26th was last night considered by the local brethren and the to-be entertainers for the meeting soon to be held and the decision was not to defer the meeting.

The president, Mr. C. Joyner, of Carbondale, Ill., suggested a postponement on account of the Confederate reunion at New Orleans demanding all surplus rolling stock on the I. C. but the local lodges could not see the necessity for a postponement.

The Interstate meeting has been well advertised and promises to outdo any former meeting in the history of the organization.

"Black Pope" Dead.

Rome, April 19.—Father Louis Martin, general of Jesuits, known as the "Black Pope," died today. He had been suffering from a cancer of the chest.

HONORARY CLASS

MEMBERS SELECTED

Valedictorian and Salutatorian of '06 are Known.

Selection Made on Merit, but the Competition Was Strong, However—The Honored Ones.

OTHER NEWS OF INTEREST.

Miss Sutherland made an average grade to date of 95 1/2 per cent and Miss Hoewischer an average grade of 94 1/2 per cent. This represents the work of the two pupils to date, it being necessary to average the grades a little prematurely in order that the successful contestants be given ample time in which to prepare their numbers which will, of course, be features of the graduating class exercises.

The young ladies are popular in their class and the selection received the unanimous approval of the members. Miss Sutherland is the daughter of Mr. Arch T. Sutherland, formerly secretary of the board of education. Miss Hoewischer is the daughter of Mr. George Hoewischer, an attaché of the Henry Runge shoe house. Both young ladies have been honest and diligent workers. Others who made a close race for the honors are Messrs. William Bell, Thomas Woodbridge and Misses Ella Wilhelm, Marie Wilcox and Beale Seymour. All percents made by the foregoing pupils totaled above 90, a very high percent considering the present system of grading.

The announcement of the successful contestants was made to the young ladies and they will at once prepare their numbers. This was all that remained to be done towards definitely arranging the commencement. The public speaker, who is also to be a feature on the program, will be doubtless secured long before the date of commencement, and no delays will be experienced. It is hoped.

Promised Lecture.

Miss Virginia Newell, the well-known music teacher, has been prevailed upon to deliver her lecture on "Wagnerian Music" this week in place of next, and will lecture tomorrow in the high school auditorium.

The following week, possibly Tuesday morning, Hon. E. W. Bagby, president of the library board, will deliver a short lecture on the proper use of the Carnegie library. He will show the pupils how to secure the best advantages and benefits from the use of this library, something that in itself is a problem of some magnitude. Mr. Bagby's address will be an interesting feature of next week's school work, and will be looked forward to with keen interest.

The "bug" problem has presented itself again in the Washington school building. These little bugs which caused so much trouble two years ago, have multiplied again and the officials will have the building thoroughly fumigated Saturday and Sunday. It is thought these bugs come from pigeons roosting in the attic of the school. They made their appearance first two weeks ago and it was thought they had been stamped out until they reappeared, this time thicker than ever.

Death of Mrs. J. W. Wingate.

Mary E. Wingate, wife of J. W. Wingate, of the St. Bernard Cement company, died this morning on Meyer street of malarial fever. She was 36 years old and leaves a husband and three children. The funeral will be preached tomorrow afternoon at 3 o'clock from the residence by Rev. Peter Fleider; interment at Oak Grove.

The Bug Again.

The "bug" problem has presented itself again in the Washington school building. These little bugs which caused so much trouble two years ago, have multiplied again and the officials will have the building thoroughly fumigated Saturday and Sunday. It is thought these bugs come from pigeons roosting in the attic of the school. They made their appearance first two weeks ago and it was thought they had been stamped out until they reappeared, this time thicker than ever.

A New South Wales farmer went out the other day and tied his small dog to the fence. On his return he found a large serpent snake attached to the end of the leash and no signs of the dog.

ANOTHER MESSAGE

FROM PRESIDENT

Declares Beef Packers Trials at Chicago Farces.

Refers Sharply to Decision of Judge Humphrey—Comes Measurably Near Making Law a Joke.

IMMUNITY SHARPLY CRITICISED

Washington, D. C. April 19.—In a special message delivered to the congress yesterday, President Roosevelt declares that the result of the recent trial of the "Beef Packers" in Chicago was a "miscarriage of justice" and that the interpretation placed by Judge Humphrey on the will of congress "is such as to make that will absolutely abortive."

The message which is most sensational in character is based largely on a letter to the president from Attorney-General Moody in which the attorney-general reviews the proceedings of the case of the government against the beef packers.

The president says it is clear that no criticism attaches to Commissioner Garfield, as what he did was in pursuance of a duty imposed on him by congress. He refers sharply, however, to the decision of Judge Humphrey, saying that congress could not have foreseen such a decision and that he can hardly believe that the ruling of Judge Humphrey will be followed by other judges. He declares that such interpretation of the laws as that placed on it by Judge Humphrey "comes measurably near making law a farce" and he recommends that congress pass a declaratory act stating its real intention. The president also requests congress to confer on the government, by statute, the same right of appeal in criminal cases, which the defendant now enjoys, where the merits of the case have not been determined. In concluding the president says:

"These beef packing cases offered one of the very few instances where there was not only the moral certainty that the accused men were guilty but what seemed—and now seems—sufficient legal evidence of the fact. But in obedience to the explicit order of the congress the commission of corporations had investigated the beef packing business. The counsel for the beef packers explicitly admitted that there was no claim that any promise of immunity had been given by Mr. Garfield, as shown by the following colloquy during the argument of the attorney-general:

"Mr. Miller (the counsel for the beef packers)—There is no claim of it."
"Mr. Moody—Then I was mistaken and will not even say that word."
"But Judge Humphrey holds that if the commissioner of corporations (and therefore if the interstate commerce commission), in the course of any investigations prescribed by congress ask any questions of a person not called as a witness, or asks any questions of an officer of a corporation not called as a witness, with regard to the action of the corporation on a subject out of which prosecutions may subsequently arise, then the fact of such questions having been asked operates as a bar to the prosecution of that person or of that officer of the corporation for his own misdeeds, such interpretation of the law comes measurably near making the law a farce, and I therefore recommend that the congress pass a declaratory act stating its real intention."

Several Persons of Prominence Arrested at Clyde, Ohio.

Clyde, Ohio, April 19.—United States Deputy Marshal A. S. Owens and C. J. Wagner, of Toledo, arrived here today and arrested persons who are charged with pension frauds. The arrests caused a sensation.

The persons arrested are Capt. John T. Aldrich, pension attorney; Mrs. Emily Crane, Eugene M. Aldrich, a notary and son of Capt. Aldrich; H. G. Gibbs a well known real estate dealer and prominent in politics; H. F. Rogers, justice of the peace and also prominent in politics, and Jesse H. Lang, a notary of Oberlin, O., who is over eighty years of age. It is declared that wholesale pension frauds have been discovered.

People and Pleasant Events

U. D. C. Meeting.
The Paducah Chapter, United Daughters of the Confederacy, held a called meeting this morning at the home of the president, Mrs. J. W. Thompson, on Jefferson street.

The chapter met to consider a proposition from the Paducah Carnival company that the local U. D. C. take charge of the "Country Store" at the coming carnival on a per cent basis. It was agreed to accept the proposition, the money to be used towards the local Confederate Monument Fund. Mrs. Bertie E. Campbell was made chairman of the committee who will have the store in charge, but a schedule of the committee for each of the six days has not yet been arranged.

Children's Hour.

Tomorrow afternoon from 4 to 5 o'clock there will be "Children's Hour" at the Carnegie library. Miss Aline Bagby will give "Children Characters From Dickens," a subject especially taking. This meeting was postponed from the last time on account of the inclement afternoon. All children are invited to be present.

Delightful Lecture Tonight.

"Rome" will be the subject of Miss Temple's lecture this evening at 8 o'clock at the Grace church parish house under the auspices of the Grace Church Guild.

This is said to be Miss Temple's finest lecture and the stereoscopic views are all especially beautiful.

Evening Card Party for Visitors.
Miss Faith Langstaff will entertain at cards tomorrow evening, at her home on Kentucky avenue, in honor of her guest, Miss Josephine Gardner of Quogue, Long Island, and of Miss Elizabeth Scott of Clarksville, Miss.

The invitations are limited to those who have been called.

Magazine Club.

Miss Martha Davis is hostess to the Magazine club this afternoon at her home on Kentucky avenue.

Mrs. J. W. Hall and children, Nola and Omar, of 1213 Trimbale street, have returned home after a short visit to relatives in Memphis, Tenn.

Mr. John Rector, formerly editor of the Cairo Bulletin, is in Paducah today on route to Knoxville, Tenn., where he will engage in the cigar business with his brother, a prominent merchant and manufacturer of Knoxville. Mr. Rector's health has been bad and he is going to a mountain climate with a view of bettering it.

Dispatcher J. B. Alvey, of the I. C. at Fulton, is in the city today on business.

Mr. Frank Schmidt, the beer man of Henderson, returned home this morning after a business trip to the city.

Mrs. Whitlow, of St. Louis, and daughter, Mrs. John P. Hennings, of St. Louis, arrived this morning to visit Mrs. Frank Ferriman, daughter of Mrs. Whitlow.

Messrs. Charles Martin, William Burch E. H. Kelley and John Mulvin, engineers on the I. C., returned this morning from Wickliffe after attending court.

Miss Mamie Dryfus is expected home the last of the month, from an extended visit in New York City.

Dr. J. D. Bacon and Mr. Ed Buchanan left for Hopkinsville last night on a business trip. They will probably return tomorrow.

Mrs. I. H. Brake and little daughters Madeline and Myrtle, of 1133 North Fourteenth street, are visiting friends and relatives in Bardwell, Ky.

Mr. John Hawkins, the well-known mail carrier, is out again after a brief illness of pneumonia.

Mr. Harry Watts, of Chanote, Kan., is visiting his aunt, Mrs. Annie Bagwell, near Paducah.

Mr. Eld Reed, of the corporation department at Frankfort, Ky., passed through the city this morning en route home to Southland.

Mr. Louis Pettit of the S. H. Winstead Medicine company, is ill of malarial fever.

Mrs. Julia McKenzie, who has been living with her daughter, Mrs. W. C. Kidd, on West Broadway, has gone to Blsbee, Ariz., to make it her home.

Mrs. Thos. A. Baker, who had her left foot amputated at Riverside hospital last week, is better and will probably be removed to her home tomorrow.

Mrs. Victor Voris has been quite sick for several days with threatening appendicitis.

The McCracken Circuit Court Upheld. Frankfort, Ky., April 19.—The court of appeals upheld the McCracken circuit court in the case of J. H. Wilson's administrator against the Illinois Central. The action was for damages and was filed too late.

CITY NATIONAL BANK

TODAY MADE GOVERNMENT DEPOSITORY BY SECRETARY SHAW.

The Announcement Is Made Today in a Dispatch From Washington.

Secretary of the Treasury Shaw today appointed the City National bank of this city a government depository. Mr. James C. Utterback, cashier of the bank, called on the secretary today with Congressman James and Senator McCreary, and after a few minutes conversation the appointment was made.

What funds the government will deposit with the local bank is not known, but interrogation at the bank today elicited the information that it would probably average \$100,000.

This is quite an honor for the institution and is as gratifying to the people of Paducah as it must be to the popular official of this popular institution.

Mr. Utterback will go on to New York before returning home.

JUDGE SANDERS PRESIDED

At Today's City Court and Had Several Cases.

Police Judge D. L. Sanders held court this morning for the first time in more than three weeks. He has been ill and just recovered sufficiently to come to court. He is still very weak.

The docket this morning was light and Judge Sanders had little to do. Milton Enoch, colored, was fined \$20 and costs for gaming.

R. L. Wolverton, white, was fined \$1 and costs for drunkenness and the fine suspended.

Henry W. Smith, white, was fined \$3 and costs for being drunk and disorderly.

Ed Vasseur and Mamie Dolan, white, were continued on a breach of the peace charge.

Will Cannon, colored, was dismissed of a breach of the peace charge. Geo. Hale, colored, was fined \$1 and costs for drunkenness.

Many Witnesses Go.

The following Paducah witnesses have been summoned to Smithland to appear as witnesses in the case of J. M. Worren against the Paducah Register company James E. and Robert Wilhelm, which will go to trial tomorrow: Postmaster F. M. Fisher, Attorneys W. A. Berry, C. C. Grassham, C. K. Wheeler, R. H. Hughes, W. F. Bradshaw, Sr., R. T. Lightfoot, W. V. Eaton, E. W. Bagby and Thomas Harrison. Some will not be able to attend. They are summoned for the plaintiff.

Takes the Lead in Civic Improvement.
Grace Episcopal church is taking the lead in the work of civic improvement with which the town is rapidly becoming fired. In the church yard is being planted today some 60 or more hardy shrubs, of every variety, that will bloom each year. Rev. David C. Wright, the rector, is an enthusiast in civic beautifying and is giving the work his personal supervision.

These shrubs will add much to attractiveness of the church yard and incidentally to the whole city.

Beautify Paducah.

Brunson's Rebuilding Sale at their Green Houses is taking the town. Go early.

WANTED—50 women, girls and boys. Good wages, clean work, 14th and Caldwell streets. Paducah Box and Basket Factory.

The socialists of Indrio, according to a dispatch from Rome, have nominated a woman candidate, Signorina Sacchi, for the vacancy in the Chamber that has occurred there.

START RIGHT AND KEEP RIGHT

CHICKENS will die and keep dying if they are not hatched right and fed right. But if started right by hatching them in HART'S INCUBATORS, built strictly on the OLD HEN PRINCIPALS and fed on HART'S CHICK FEED they will grow fast, feather rapidly and will not die.

A Chick Will Not Die

Unless it is killed by mistreatment. SO DON'T KILL YOUR CHICKS.

Talk to Hart

He will tell you how and help you out. It is his pleasure.

HOW MONEY PILES UP.

(From New York Mail.)

A great popular industrial school, the Franklin Union, has been established in Boston—and a New York man, Mr. Bouillon, called upon to take charge of it—on the foundation of five thousand dollars bequeathed by Benjamin Franklin more than a hundred years ago. Franklin, as is well known, had the amount put out at interest for a century for the benefit of the working youth of his native city.

What is the result? The managers of the Franklin Union now have on hand, for actual use, a round million dollars in cash, and, in addition to that \$200,000 in good securities, which will accumulate interest for another hundred years, when it is expected to have produced a new capital of \$8,000,000 or \$9,000,000.

To be sure, not all the millions now on hand is the increment of Franklin's original gift, for Mr. Carnegie made a generous addition to that; but the bulk of it is from that source and all the \$200,000 now set aside in securities is derived from Franklin's original gift. In 200 years (which is the length of time that has now elapsed since Franklin was born), his gift of \$5,000 will have rolled up to about \$10,000,000.

Where will all this have come from? It is a puzzling old problem, the answer to which may seem simple enough to those who put money out at interest, but which is something of a mystery. Money is the measure of values. Value, in the last analysis, consists of things to eat and wear and use. Had \$2,000,000 of these things, existing when Franklin died in 1790, actually increased to \$1,000,000 worth of them in 1890 or 1990? Had all the rest of the good things that were in existence in 1790 fructified in the same proportion? And if \$200,000 of Franklin's money in 1906 will be \$9,000,000 of things to eat and wear in 2000, what will Mr. Rockefeller's \$500,000,000 pile up to in that year? To \$100,000,000,000, which is what the whole wealth of the United States now amounts to. But at the same rate of increment the present entire wealth of the United States will have piled up, by 2006, to \$20,000,000,000,000—an impossible figure.

RETAINS HUGHES TO PROSECUTE

Government Takes On the Noted Insurance Case Attorney.

Will Go After the Coal Operators
and the Railroads Interested
With Them.

ATTY-GEN. MOODY'S STATEMENT

Washington, April 19.—The administration has decided to begin action against the anthracite and bituminous coal combines and all the railroads that are interested in them. An announcement to this effect is made by Attorney General Moody. He also stated that Charles E. Hughes, of New York, and Alexander Simpson, Jr., of Philadelphia, had been retained as special counsel for the government to conduct the proceedings. Hughes was the inquisitor of the committee of the New York legislature, which recently conducted the insurance investigation in the metropolis. The statement of the attorney general conveying the momentous announcement of the government's plan is as follows:

"Charles E. Hughes, of the New York bar, and Alexander Simpson, Jr., of the Pennsylvania bar, have been retained by the department of justice to take under consideration all the facts now known or which can be ascertained, relating to the transportation and sale of coal in interstate commerce; to advise what, if any, legal proceedings should be begun and to conduct under the direction of the attorney general such suits or prosecutions if any, as may be warranted by the evidence in hand and forthcoming.

"The general subject, for some time has been under consideration by the department. It is believed that sufficient evidence has been developed in the investigations of the interstate commerce commission and otherwise to warrant the employment of counsel under the provisions of the appropriation act of February 25, 1903, authorizing the employment of special counsel and agents in proceedings of this nature. An important element in arriving at this conclusion is the recent decision of the supreme court in *Hale vs. Hinkel*, holding that the federal government has the right under legal proceedings to examine the books and records of corporations engaged in interstate commerce."

The railroads against which proceedings are to begin number fully a dozen in so far as the Pennsylvania coal fields alone are concerned. The attorney general did not disclose whether it was his purpose to take action against railroads in other parts of the country, but the understanding is that the government's efforts will be directed against the hard and soft coal "combines," against which there has been so much popular complaint. The principal railroads which, it is said are interested in the anthracite combination, are the Pennsylvania, Reading, Lackawanna, Lehigh Valley, Erie and Delaware and Hudson. Among those said to be concerned financially or otherwise in the bituminous combination are the Pennsylvania, New York Central, Erie, Baltimore & Ohio, Chesapeake & Ohio, Norfolk & Western and West Virginia Central.

The department of justice is said to have evidence proving that the railroads controlling the hard and soft coal output, together with some of their leading officials, have been transgressing the interstate commerce law, the Sherman anti-trust law and the Elkins anti-rebate law, and it is intimated that when the testimony is submitted to the court it will astound the people of the country, and also open the eyes of the minority stockholders of the railroads to certain enormous profits which leading officials of the transportation companies have been enjoying at their expense.

O O O O O O O O O O
O \$75 FOR THE PIET-
O TIST YARDS IN
O PADUCAH.
O The Sun offers a prize of \$10
O cash for the prettiest yard in
O each of the six wards of Paducah.
O cash, the residents within a half
O mile of the city limits being
O deemed eligible for the contests.
O Besides these prizes for the
O different wards, an extra prize
O of \$15 cash will be given for the
O prettiest yard in the city at
O large.
O The Sun offers these prizes to
O stimulate an interest in hand-
O some yards.
O The contests will be decided
O July 15th, by a committee to
O be selected at a later date.
O contest and the entries must be
O submitted to The Sun.

Just received another car of Black Diamond Roofing, the heaviest and best on the market. Two-ply, 45 pounds; three-ply, 70 pounds.

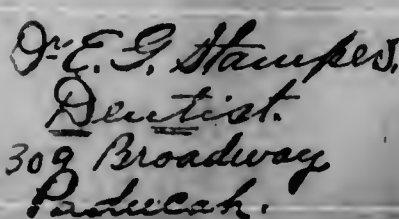

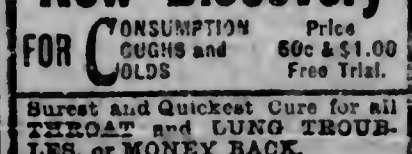

H. A. Petter Supply Co.
117-119 South First Street

The moral gain to Percival from his new devotion to the stock market was commented upon approvingly both by Uncle Peter and by his mother. It was quite as tangible as his money profits promised to be. He ceased to frequent the temple of chance in Forty-fourth street, to the proprietor's genuine regret. The poker games at the hotel he abandoned as being trifling. And the cabmen along upper Broadway had seldom now the opportunity to compete for his early morning patronage. He began to keep early hours and to do less casual drinking during the day. After three weeks of this comparatively regular living his mother rejoiced to note signs that his breakfast appetite was returning.

"You see," he explained earnestly to Uncle Peter, "a man to make anything at this game must keep his head clear, and he must have good health to do that. I meet a lot of those fellows down here that queer themselves by drink. It doesn't do so much hurt when a man isn't needing his brains—but no more of it for me just now!"

"That's right, son. I knew I could

CHURCH MENTION.

The Tenth Street Christian Church Revival—First Baptist Vacancy.

The meeting of the Tenth street Christian church was well attended last night and fine attention was given to Evangelist W. J. Hudspeeth, of Hopkinsville. The theme was "Three Greatest Questions" as to the origin, duty and destiny of man.

Mr. Hudspeeth will preach again this evening at 7:45 o'clock on "The Grace of God That Bringeth Salvation." Rev. B. W. Bass, pastor of the church, has the congregation well organized for a great meeting. Services continue all this week. The public is cordially invited to attend.

Rev. Calvin Thompson, of Denver, Col., who filled the pulpit at the First Baptist church on Sunday, has returned home.

There was a meeting of the committee appointed to secure a pastor for the First Baptist church, at the office of Mr. John R. Puryear yesterday afternoon, but the committee is not ready to make any announcement in regard to the decision reached.

Rev. J. W. Blackard, presiding elder of the Paducah district Methodist churches, will hold a quarterly conference at Barlow on Saturday morning, and from there will go to La Center and in the evening deliver his lecture, "A Trip to Europe." Mr. Blackard recently gave this lecture at the Broadway Methodist church here. He is a pleasant speaker and it was very enjoyable.

Rev. T. J. Owen, of the Methodist Mission churches, is preparing for the dedication of the new church at Little Cypress on Saturday, April 28. It will be a big event, with a basket dinner on the grounds, excellent singing and fine services.

Rev. W. H. Pinkerton left this morning at 1:40 for Louisville after spending yesterday in the city. He was en route from Memphis, where he spoke on Tuesday evening. From Louisville, where he will preach tonight, he goes to Williamsburg, Ohio, and other cities for an indefinite stay.

Luster Dies in Hopkinsville Asylum. Hopkinsville, Ky., April 19.—Percy J. Luster, the Elkton wife murderer, died yesterday afternoon in the asylum here of acute diarrhea. His death was quite a surprise, as it was thought he was doing well.

ENTIRE CITY HAS BEEN DESTROYED

(Continued From Page One.)

district spreading out like an immense funnel and could be seen for miles out at sea. Occasionally some drug house or place stored with chemicals was reached and the most fantastic effects were produced by colored flames and smoke which rolled out against the darker background.

One Thousand Bodies Recovered.
One thousand bodies have been already recovered. Falling walls pinned many victims fast and they were compelled to suffer untold agony while the flames crept toward them. Some believe the number of deaths will reach the appalling figure of 5,000 but from the number of bodies recovered this figure may be excessive.

The entire city presents a scene of indescribable confusion. The fire scene is so large that it takes two and one half hours to go around it. Every automobile, vehicle and wagon in the city is pressed into service as ambulances. Mayor Schmitz appointed 3,000 more special policemen. It is estimated that aside from the city fire departments there were 25,000 fire fighters.

Nearly every big factory building has been wiped out of existence and complete enumeration of them would look like a copy of a city directory. Many of the finest buildings in the city were leveled to the dust by terrific charges of dynamite in a hopeless effort to stay the horror of the fire. In this work many soldiers, police and firemen were killed. At 10 o'clock tonight fire is unabated and the people are fleeing to the hills and clamoring for places on the ferry-boat at the Ferry building.

The damage is now believed to have reached \$200,000,000.

San Francisco, April 19.—2:20 p. m.—The fire has eaten its way to Hopkins' Art Institute. The Stanford residence, one of the finest in the city, is aflame.

St. Francis hotel is a furnace. The firemen are exhausted after the long and valiant fight.

Practically all of the warehouses with their vast quantities of provisions are destroyed and what little food supplies left are in outlying districts.

There is still no water and nothing at all can save the city from complete destruction.

The fire now spreading west, north and south through the residence districts.

Train Swallowed Up.
Sacramento, Cal., April 19.—All the plans for running trains on the western division of the Southern Pacific between this city and Oakland were knocked out yesterday by terrific earthquake. The train dispatchers had no telegraph wires operating to San Francisco and no connection could be had by telephone.

A short time after the big shock came a message from Suisun, Solano county saying that a long section of track had disappeared from view. It was learned later that at one place between Sprig and Teal stations, in the Suisun marshes, for a distance of one mile and a half the track had sunk down three to six feet and at another point nearly 1,000 feet of track went out. Trains which were dispatched for San Francisco early this morning had to be brought back and they went to the Bay City by the Lathrop route.

STUCK TO THEIR KEYS.
World Indebted to the Faithful Operators.

New York, April 19.—That the world received news throughout the day of the San Francisco disaster is due in part to the courage of the telegraph operators there, who stuck to their posts and continued to send news and other messages, in spite of great personal danger.

The operators and officials of the Postal Telegraph company remained in the main office of the company at the corner of Market and Montgomery streets, opposite the Palace hotel, until they were ordered out of the building because of the danger from the dynamite explosions in the immediate vicinity.

The men proceeded to Oakland and across the bay and took possession of the office there.

Now the company is operating seven wires from Oakland.

All messages to the city must be taken across the bay in boats.

The Cops' Vacation.
The police are beginning to talk about their vacations which are by ordinance given them annually. The ordinance provides that each patrolman gets ten days' lay off with full pay each year, but this year there are no substitute officers, and the heads of the department do not know how to arrange it. If the men get off it will leave some beats unpatrolled.

MOST OF CALIFORNIA SUFFERS DAMAGES WIRES WASHINGTON

The Extent of the Shock Was Wide and Terrible.

San Jose, Santa Rosa, Palo Alto, and Other Cities in the Path.

THE LOSS IS VERY GREAT

Oakland, Cal., April 19.—At San Jose the Vendon Hotel Annex was badly wrecked and 10 or 15 killed. Every business building was demolished. Estimated 15 were killed at the postoffice which was half wrecked. Passengers arriving from other cities in California bring tales of death and disaster from nearly all. Santa Cruz, Monterey, Gilroy and Holdster were wrecked. The death list at Santa Cruz is reported large. With one exception all buildings of the Stanford University were demolished.

Los Angeles, Cal., April 19.—Santa Rosa is a total wreck, 10,000 homeless and loss of life will probably reach hundreds. The whole business portion of the county tumbled into ruins with not a business building left intact. Buildings not destroyed by the earthquake were swept by fires. Citizens fled to the fields and hills to watch the destruction of the city. The water system was destroyed by the earthquake.

Communication with the outside towns is almost entirely cut off, but a report comes from Palo Alto that all but one of the buildings of the Stanford University were wrecked, and that the splendid memorial church, one of the finest in the world, is a mass of ruins.

One student was killed. In Oakland five persons were killed. San Jose, Sacramento, Berkeley, Alameda and other places heard from suffered severely, but report no loss of life.

The dreadful earthquake shock came without warning at precisely 5:13, its motion apparently being from east to west.

LOCAL QUAKES.
Sixteen Felt in This Section Since 1872, Says the Records.

Since 1872, when the first reliable record was made, there have been some sixteen earthquake shocks felt in this section, as follows: April 20, 1872; May 3, 1873; July 14, 1877; November 13, 1878; July 13, 1880; October 7, 1881; June 11, 1883; November 29, 1884; August 3, 1886; November 3, 1888; June 5, 1889; June 14, 1891; October 31, 1895; September 14, 1901; October 3, 1903, and yesterday's shock. The Charleston quake was in 1886, but the severest one no doubt ever felt was the one of 1811, when Reel Foot lake, in Lake county, Tenn., was made by the sinking of thousands of acres of land below the waters of the Mississippi river.

(Continued from First page.)
ing and not under control, although water is now available for fire purposes.

San Francisco, Cal., April 19.—The area covered by flames up to the present time is eight square miles or several hundred city blocks. Most of the buildings untouched by flames have been greatly damaged by earthquake shocks.

The pecuniary loss as 4 p. m. yesterday conservatively estimated at one hundred million dollars.

Oakland, Cal., April 19.—Reports from districts outside of San Francisco indicate widespread damage. San Jose, 50 miles south, lost many buildings and 15 to 20 people killed.

Julius Robert Hannah, of Bradford, Pa., and Otto Gurts, fireman, and six other students, all Californians, are lying at Palowalto hospital with bruises, cuts and internal injuries.

The court house at Redwood City and other buildings collapsed.

Los Angeles, Cal., April 19.—A dispatch from Oakland late this afternoon says the fire is gaining in San Francisco, and beyond control. The entire city is in danger. An extra issue here at 5:30 says it is estimated the dead now number 2,500 and that Fire Chief Sullivan was fatally injured by falling walls.

Oakland, Cal., April 19.—The Palace hotel is destroyed; the Postal and Western Union buildings and the magnificent new Union Trust company's building 11 stories high have been dynamited.

Oakland, Cal., April 19.—At Oakland, about 6:30 last evening another sharp shock of earthquake was felt on this side of the bay. It was of short duration, lasting about five seconds.

San Jose, Cal., April 19.—At San Jose the Agnew's asylum is a total wreck and many inmates have been killed and the remainder are running around loose, terrorizing the community. The superintendent of the institution and his wife have been killed.

In Nevada.
Washington, D. C., April 19.—A Western Union dispatch received yesterday says the shocks were repeated as far east as Hazen, Nevada. No one is allowed to come to San Francisco and boats and trains are crowded with refugees.

At Salinas.
Salinas, Cal., April 19.—A terrific earthquake occurred here yesterday morning and again in the afternoon. Loss one million dollars. Impossible to reach San Francisco by wire or telephone.

The Stanford University Building.
Los Angeles, April 19.—Advices received state that all but two of the Leland Stanford University buildings are ruined and a hundred and fifty bodies recovered from the ruins of the Stagnes insane asylum.

San Francisco Doomed.
Oakland, April 19.—The outside cities were sending their fire engines to 'Frisco to subdue the flames, but finding it useless on account of the lack of water, the machinas are being returned to Oakland and other points. The firemen report the city doomed.

Mint Money Safe.
Washington, April 19.—A telegram from the director of the mint at San Francisco received today says the stock of government gold and silver bullion, amounting to thirty-nine million dollars, is safe.

Washington April 19.—The war department, this afternoon, received a message from Gen. Funston that conditions could not be worse city still burning. Lieut. Charles Puffs, Seventeenth seacoast artillery, mortally wounded by explosion.

One Great Loss.
One big loss of the day was the destruction of St. Ignatius church and college, the greatest Jesuitical institution in the west, and built at a cost of a couple of millions.

Throughout the city wherever there is public square a scene of desolation is presented. Tents have been pitched by fortunate possessors of canvas, but a majority of the homeless people are huddled in frightened groups about the household belongings they managed to save from the general rump. From Golden Gate Park comes news of the total destruction of the immense building covering a portion of the children's play grounds.

BOYS!

**Be Our Guests FOR FIVE WEEKS
At Our Camp in Maine**

All Railway, Camp and Other Expenses of every boy who goes will be paid by

THE SATURDAY EVENING POST

There will be Fishing, Swimming, Rowing, Mountain Climbing—plenty of fun and wholesome, healthy living—and we pay all the expenses. Your parents will gladly let you go when they learn of our plans for your happiness and our precautions for your safety.

Any boy under eighteen who sells the magazine is eligible for membership in The Boys' Camping Club. If you want to go, write at once; ask us to send you details together with ten copies of the next issue of the magazine. The copies will be mailed to you entirely without charge. These you can sell at five cents each, and thus provide the money for the following week's supply at the wholesale price.

Full information will go with the magazine, including a twenty-page illustrated booklet, "A Boy's Camping Club," telling how to become a member, and another booklet, "Boys Who Make Money," giving clever plans of some successful boy agents. Write today.

\$250.00 IN CASH as Extra Prizes for Boys Who Do Good Work NEXT MONTH

The Curtis Publishing Company, 1725 Arch St., Philadelphia, Pa.

THE RETAIL DRUGGISTS MEET.

Are Working to Secure a Uniformity of Prices, Etc.

The Retail Druggists' Association is meeting this afternoon in weekly session. The meetings began several weeks ago and they are accomplishing a great deal, although the public knows little of the work that is being done.

For several years there has been a difference in prices among pharmacists. Some class of pills cost more than others, and the prices at

retail differ. It is seldom that the same quality of any drug can be bought for the same money and in order to form a general scale of prices the druggists inaugurated the weekly meetings that they might keep in closer touch and promote the profession.

Already a scale of prices has been formed. The prices are not increased in the aggregate but reduced. Some articles sold at higher prices by one druggist are cut down, while those who sold cheaper by another have raised. A uniformity of prices is what is being worked after.

Will Meet Thursday.

The poor farm committee agreed to receive propositions for purchase of land on which to erect the new county poor house, meet Thursday morning. There several real estate men who sites to offer. There is a strip ground on nearly every road leading out from the city, and the committee will consider all offers carefully before a purchase is made.

The Pope's residence at the Vatican with its treasures, in money, is estimated to exceed \$150,000,000 in value.

Danderine

Grew Miss Wilson's Hair

AND WE CAN

PROVE IT.

**Danderine Is So Exhilarating,
Invigorating**

and strengthening to both the hair and scalp that even a 20c. bottle of it is often enough to show wonderful improvements. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout out all over the scalp, and grow abundantly, long and beautiful. Use it every day for awhile, after which two or three times a week will be enough to complete whatever growth you desire.

NOW at all druggists, in three sizes, 25 cents, 50 cents and \$1.00 per bottle.

FREE. To show how quickly Danderine acts, we will send a large sample free by return mail to any one who sends this advertisement to the **Knowlton Danderine Co., Chicago**, with their name and address and ten cents in silver or stamps to pay postage.
